CONFIDENCIAL

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations

which is the subject of the present paper. It is shown that the system of equations has a solution if and only if the matrix

is nonsingular. The matrix is nonsingular if and only if the determinant of the matrix is not equal to zero. The determinant of the matrix is not equal to zero if and only if the matrix is nonsingular. The matrix is nonsingular if and only if the determinant of the matrix is not equal to zero. The determinant of the matrix is not equal to zero if and only if the matrix is nonsingular.

2. The second part of the paper is devoted to a detailed study of the properties of the solution of the system of equations.

3. The third part of the paper is devoted to a study of the properties of the solution of the system of equations.

1. The first part of the report is a general statement of the purpose of the study and the objectives to be achieved. It also includes a brief description of the methods used and the results obtained.

2. The second part of the report is a detailed description of the methods used in the study. This includes a description of the experimental design, the subjects involved, the materials used, and the procedures followed.

3. The third part of the report is a discussion of the results obtained. This includes a comparison of the results with those of previous studies, a discussion of the strengths and limitations of the study, and a conclusion about the findings.

4. The fourth part of the report is a list of references, which includes all the sources used in the study.

5. The fifth part of the report is a list of appendices, which includes any additional material that is relevant to the study.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β .

2. In the second part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

3. In the third part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

4. In the fourth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

5. In the fifth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

6. In the sixth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

7. In the seventh part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

8. In the eighth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

9. In the ninth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

10. In the tenth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

11. In the eleventh part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

12. In the twelfth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

13. In the thirteenth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

14. In the fourteenth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

15. In the fifteenth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

1. The first part of the report deals with the general situation of the country and the progress of the work during the year. It is divided into two main sections: the first section deals with the general situation of the country and the progress of the work during the year, and the second section deals with the specific results of the work.

2. The second part of the report deals with the specific results of the work. It is divided into three main sections: the first section deals with the results of the work in the field of agriculture, the second section deals with the results of the work in the field of industry, and the third section deals with the results of the work in the field of commerce.

3. The third part of the report deals with the financial results of the work. It is divided into two main sections: the first section deals with the income of the country, and the second section deals with the expenditure of the country. The first section is further divided into three sub-sections: the first sub-section deals with the income from agriculture, the second sub-section deals with the income from industry, and the third sub-section deals with the income from commerce. The second section is further divided into three sub-sections: the first sub-section deals with the expenditure on agriculture, the second sub-section deals with the expenditure on industry, and the third sub-section deals with the expenditure on commerce.

4. The fourth part of the report deals with the general conclusions of the work. It is divided into two main sections: the first section deals with the general conclusions of the work, and the second section deals with the specific conclusions of the work.

5. The fifth part of the report deals with the general conclusions of the work. It is divided into two main sections: the first section deals with the general conclusions of the work, and the second section deals with the specific conclusions of the work.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations

which are satisfied by the functions u_i and v_i in the domain G of the plane. It is shown that the system has a solution if and only if the functions f_i and g_i satisfy certain conditions.

2. In the second part of the paper the problem of the uniqueness of the solution of the system of equations is considered. It is shown that the solution is unique if the functions f_i and g_i satisfy certain conditions.

3. In the third part of the paper the problem of the construction of the solution of the system of equations is considered. It is shown that the solution can be constructed by the method of successive approximations.

4. In the fourth part of the paper the problem of the stability of the solution of the system of equations is considered. It is shown that the solution is stable if the functions f_i and g_i satisfy certain conditions.

5. In the fifth part of the paper the problem of the construction of the solution of the system of equations is considered. It is shown that the solution can be constructed by the method of successive approximations.

6. In the sixth part of the paper the problem of the stability of the solution of the system of equations is considered. It is shown that the solution is stable if the functions f_i and g_i satisfy certain conditions.

7. In the seventh part of the paper the problem of the construction of the solution of the system of equations is considered. It is shown that the solution can be constructed by the method of successive approximations.

8. In the eighth part of the paper the problem of the stability of the solution of the system of equations is considered. It is shown that the solution is stable if the functions f_i and g_i satisfy certain conditions.

1. The first part of the report is a general statement of the purpose of the study and the objectives to be achieved. This is followed by a brief review of the literature on the subject, and a statement of the methods used in the study.

2. The second part of the report is a detailed description of the results of the study. This is followed by a discussion of the results, and a conclusion which summarizes the findings of the study.

3. The third part of the report is a discussion of the results of the study. This is followed by a conclusion which summarizes the findings of the study. The results of the study are presented in a series of tables and figures, which are discussed in detail in the text. The results show that the study was successful in achieving its objectives, and that the findings of the study are of significant importance.

4. The fourth part of the report is a discussion of the results of the study. This is followed by a conclusion which summarizes the findings of the study. The results of the study are presented in a series of tables and figures, which are discussed in detail in the text. The results show that the study was successful in achieving its objectives, and that the findings of the study are of significant importance.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and discusses their implications for the field of study. The results are presented in a clear and concise manner, using tables and figures where appropriate.

4. The fourth part of the report is a conclusion and a summary of the findings. It provides a final overview of the study and its results, and offers some suggestions for further research.

5. The fifth part of the report is a list of references. It includes a list of all the sources used in the study, including books, articles, and other documents.

6. The sixth part of the report is an appendix. It contains additional information that is not included in the main body of the report, such as raw data, detailed calculations, and other supporting materials.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations

which are satisfied by the functions $u_i(x, y, z)$ and $v_i(x, y, z)$ in the domain G of the space E_3 .

2. In the second part of the paper we shall consider the problem of the existence of solutions of the system of equations (1) in the domain G of the space E_3 under the conditions that the functions $u_i(x, y, z)$ and $v_i(x, y, z)$ satisfy the boundary conditions

where \mathbf{r} is the vector of the position of the point (x, y, z) in the space E_3 .

3. In the third part of the paper we shall consider the problem of the existence of solutions of the system of equations (1) in the domain G of the space E_3 under the conditions that the functions $u_i(x, y, z)$ and $v_i(x, y, z)$ satisfy the boundary conditions

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and compares them with the previous studies in the field. The discussion also includes a critical evaluation of the strengths and limitations of the study.

4. The fourth part of the report is a conclusion and a list of references. The conclusion summarizes the main findings of the study and provides recommendations for future research. The references list the sources of information used in the study.

5. The fifth part of the report is an appendix containing additional information related to the study. This may include raw data, detailed calculations, or other supporting materials.

6. The sixth part of the report is a bibliography listing the sources of information used in the study. This is a standard feature of academic reports and provides a way for readers to locate the original sources of the information.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β .

2. In the second part we consider the case when the parameters α and β are small and we obtain the asymptotic expansion of the solution in powers of these parameters.

3. In the third part we consider the case when the parameters α and β are large and we obtain the asymptotic expansion of the solution in powers of the reciprocals of these parameters.

4. In the fourth part we consider the case when the parameters α and β are of the order of unity and we obtain the asymptotic expansion of the solution in powers of these parameters.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations

which is the subject of the present paper. It is shown that the system of equations has a solution if and only if the matrix

is nonsingular. The matrix is nonsingular if and only if the determinant of the matrix is not equal to zero. The determinant of the matrix is not equal to zero if and only if the matrix is nonsingular. The matrix is nonsingular if and only if the determinant of the matrix is not equal to zero. The determinant of the matrix is not equal to zero if and only if the matrix is nonsingular.

2. The second part of the paper is devoted to a detailed study of the properties of the solution of the system of equations.

3. The third part of the paper is devoted to a study of the properties of the solution of the system of equations.

1. The first part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

2. The second part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

3. The third part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

4. The fourth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

5. The fifth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

6. The sixth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

7. The seventh part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

8. The eighth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

9. The ninth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

10. The tenth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the company's finances and for ensuring that all stakeholders are kept informed of the company's financial health.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and discusses their implications for the field of study. It also includes a comparison of the results with previous research in the area.

4. The fourth part of the report is a conclusion and a list of references. The conclusion summarizes the main findings of the study and provides recommendations for future research. The references list the sources of information used in the study.

5. The fifth part of the report is an appendix containing additional information related to the study. This may include raw data, detailed calculations, or other supporting materials.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations

which are satisfied by the functions $u_i(x, y, z)$ and $v_i(x, y, z)$ in the domain G of the space E_3 bounded by the surface S .

2. In the second part of the paper the problem of the existence of solutions of the system of equations is solved for the case when the functions $u_i(x, y, z)$ and $v_i(x, y, z)$ are assumed to be harmonic in the domain G and to satisfy the boundary conditions on the surface S of the form

where $\Phi_i(x, y, z)$ and $\Psi_i(x, y, z)$ are arbitrary functions of the coordinates x, y, z which are harmonic in the domain G and satisfy the boundary conditions on the surface S of the form

where $\Phi_i(x, y, z)$ and $\Psi_i(x, y, z)$ are arbitrary functions of the coordinates x, y, z which are harmonic in the domain G and satisfy the boundary conditions on the surface S of the form

1. The first part of the report is a general statement of the purpose of the study and the scope of the work. It is followed by a brief review of the literature on the subject.

2. The second part of the report is a description of the methods used in the study. This includes a description of the subjects, the experimental design, and the procedures used to collect and analyze the data.

3. The third part of the report is a presentation of the results of the study. This includes a description of the data, a summary of the findings, and a discussion of the implications of the results. The results are presented in a series of tables and figures, which are described in detail in the text.

4. The fourth part of the report is a conclusion and a list of references. The conclusion summarizes the main findings of the study and discusses the limitations of the study. The references list the sources of information used in the study.

5. The fifth part of the report is a list of appendices. These include a list of the subjects, a list of the experimental design, and a list of the procedures used to collect and analyze the data.

6. The sixth part of the report is a list of figures. These include a list of the tables and figures used in the study, and a list of the data used to create the tables and figures.

7. The seventh part of the report is a list of tables. These include a list of the tables used in the study, and a list of the data used to create the tables.

8. The eighth part of the report is a list of references. These include a list of the sources of information used in the study.

TTE 1RO	I	MULLER*ROBERTO GUILLERMO	08604950	015837	

1. The first part of the report is a general statement of the purpose and scope of the study. It is followed by a brief review of the literature on the subject.

2. The second part of the report is a description of the methods used in the study. This includes a discussion of the subjects, the instruments used, and the procedures followed.

3. The third part of the report is a presentation of the results of the study. This is done in the form of a series of tables and graphs. The tables show the raw data, and the graphs show the results of the statistical analysis. The results are then discussed in terms of their significance and their implications for the theory and practice of the field.

4. The fourth part of the report is a conclusion and a list of references.

5. The fifth part of the report is a list of references. This is a list of the books, articles, and other sources that were used in the study.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β .

2. In the second part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a linear system of equations.

3. In the third part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a nonlinear system of equations.

4. In the fourth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

5. In the fifth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

6. In the sixth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

7. In the seventh part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

8. In the eighth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

9. In the ninth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

10. In the tenth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

11. In the eleventh part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

12. In the twelfth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved for the case of a system of equations with a variable coefficient.

1. The first part of the report is a general statement of the purpose of the study and the scope of the work.

2. The second part of the report is a description of the methods used in the study and the results of the work.

3. The third part of the report is a discussion of the results of the study and the conclusions drawn from the work.

4. The fourth part of the report is a summary of the work.

5. The fifth part of the report is a list of references.

11

1. The first part of the report is a general
description of the area and the
methods used in the study.

2. The second part of the report is a
detailed description of the results
of the study.

3. The third part of the report is a
discussion of the results and
the conclusions drawn from them.

4. The fourth part of the report is a
summary of the findings.

5. The fifth part of the report is a
conclusion.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research. It also provides a brief overview of the methodology used in the study.

2. The second part of the report is a detailed description of the methodology used in the study. It discusses the data collection methods, the sample size, and the statistical analysis techniques used.

3. The third part of the report is a discussion of the results of the study. It discusses the findings of the study and their implications for the field of research.

4. The fourth part of the report is a conclusion and a summary of the findings of the study. It discusses the overall results of the study and the implications for the field of research.

5. The fifth part of the report is a list of references. It lists the sources of information used in the study.

6. The sixth part of the report is an appendix. It contains additional information related to the study.

7. The seventh part of the report is a glossary. It defines the terms used in the study.

8. The eighth part of the report is a list of figures. It lists the figures included in the study.

9. The ninth part of the report is a list of tables. It lists the tables included in the study.

10. The tenth part of the report is a list of abbreviations. It lists the abbreviations used in the study.

11. The eleventh part of the report is a list of symbols. It lists the symbols used in the study.

12. The twelfth part of the report is a list of footnotes. It lists the footnotes included in the study.

13. The thirteenth part of the report is a list of appendices. It lists the appendices included in the study.

14. The fourteenth part of the report is a list of references. It lists the sources of information used in the study.

15. The fifteenth part of the report is a list of figures. It lists the figures included in the study.

16. The sixteenth part of the report is a list of tables. It lists the tables included in the study.

17. The seventeenth part of the report is a list of abbreviations. It lists the abbreviations used in the study.

18. The eighteenth part of the report is a list of symbols. It lists the symbols used in the study.

19. The nineteenth part of the report is a list of footnotes. It lists the footnotes included in the study.

20. The twentieth part of the report is a list of appendices. It lists the appendices included in the study.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

2. In the second part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

3. In the third part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

4. In the fourth part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

5. In the fifth part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

6. In the sixth part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

7. In the seventh part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

8. In the eighth part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

9. In the ninth part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

10. In the tenth part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of the parameters α and β if the function $f(x)$ is continuous and has a bounded derivative.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β .

2. In the second part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

3. In the third part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

4. In the fourth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

5. In the fifth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β .

2. In the second part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved by the method of the variation of constants.

3. In the third part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved by the method of the variation of constants.

4. In the fourth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved by the method of the variation of constants.

5. In the fifth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β is solved by the method of the variation of constants.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

2. In the second part of the paper, we shall consider the case when the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$ are not arbitrary, but satisfy certain conditions.

3. In the third part of the paper, we shall consider the case when the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$ are not arbitrary, but satisfy certain conditions.

4. In the fourth part of the paper, we shall consider the case when the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$ are not arbitrary, but satisfy certain conditions.

5. In the fifth part of the paper, we shall consider the case when the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$ are not arbitrary, but satisfy certain conditions.

6. In the sixth part of the paper, we shall consider the case when the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$ are not arbitrary, but satisfy certain conditions.

7. In the seventh part of the paper, we shall consider the case when the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$ are not arbitrary, but satisfy certain conditions.
